SWAIM'S

Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof of Surgery, Pa. Univ.
Valentine Mott, M. D., Prof. of Surgery, New York University
W. P. Dewees, M D., Prof. of Mid., Pa Univ.
N. Chapman, M. D., Prof. of Physic, Pa Univ.
T. Parke, M D., Pres't College Physicians, Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Eourenco de Luz, Prof of Surgery, Lisbon.
J. Chipman, Member Royal College Surgeons, London
G. W. Erving, late Minister to Spain.
Sir Thomas Pearson, Maj Gen British Army.
Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA,"

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm Swaim separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned stripes, and a large semi-circular die forms the upper margin. The border is composed of plain lathe work stripes, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chestnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness

British and other foreign patents procured thro' prompt and confidential agents in London and Paris

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents Samuel Cooper, Esq of Boston, has been engaged as Solicitor and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted

CHARLES MASON, Commissioner

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage

HENRY B. RENWICK, L. D. GALE, S. H. LANE	Principal Examiners.
F SOUTHGATE SMITH, T. R. PEALE, THOS T. EVERETT, WM C. LANGDON,	Assistant Examiners

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

California Mail Steamers via Panama, leave New York on the 5th and 20th of each month.

Steamers via Nicaragua, leave New York on the [illegible] and 20th of each month.

The Havana steamers leave New York on the 3d, 12th, 17th and 27th of each month, and Charleston S. C., on the 4th and 19th

The New York steamers of the 3d and 17th are the only ones under strict contract with government to sail on their appointed days. Deviations are frequently made by the others, to avoid vexatious quarantines, &c.

The mail contract with the Charleston steamers is kept up the year round.

The mails for California close at the Boston post-office at 2 P. M. on the 4th and 19th of every month, to be forwarded by the steamers leaving New York on the 5th and 20th.

The receipt of letters at the Bangor Post Office, by these steamers, may be expected the second day after their arrival in New York.

NEW BOOKS—Howard and his Teacher, by Mrs. Leslie; Trying to be Useful. For sale by O. R. PATCH.

Whig and Courier.

NEW YEAR'S ADDRESS.

AGAIN' again, prompt as the sun that brings
To-day, the first morn of another year—
His annual song to you the news boy sings,
To which he begs you'll lend attentive ear.

A year hath passed, e'en as the cloud's shade,
That moves so swiftly, silently away—
What fearful ravage hath its passage made
How many a heart, so joyous, light and gay
When o'er the hills last New Year's morning broke
Now silent, pulseless, moulders in the tomb.
How many an eye that then with joy awoke,
Now closed forever, sleeps in [illegible] gloom,
While other hearts with keenest anguish mourn,
And other eyes are filled with blinding tears
For loved and lost ones who will ne'er return
To gladden life as [illegible]
'Tis always thus—Time's ever sweeping tide
Bears on to ruin all we cherish most—
We are but bubbles on its [illegible]
For a brief moment—then whelmed and lost

But your Carrier comes to-day—
Not to sing [illegible]
Of the year just passed away—
Of its hopes and pleasures [illegible]
But to tell in homely rhyme
Briefly of some curious things
Which the gray old Patriarch Time,
Scattered from his restless wings
As he led the dying hours
On their way to Lethe's shore—
Some, all fair and sweet as flowers,
Some, all bitter to the core.

First, then, let me talk awhile
(Not not with a frown but smile)
On those ever-raising topics
Politics and party strife
With which, from the burning tropics
To the North-land's [illegible]
Of the triumphs which the people
Battling for the Right have won
Over Slavery's [illegible] minions
By [illegible] led on.

Where's Lecompton now
Where, too, its pro-slavery backers
Where's Buchanan's boastful vow
(As the Pennsylvania [illegible]
And their loud boasts [illegible]
Echo back in thunder tones
From out pine covered [illegible] to Kansas,
Stunning to poor John Jones
So the [illegible]
Be [illegible]
How poor Jemmy [illegible] idol
[illegible]
And the Empire State [illegible]
And her voice hath [illegible]
As a fearful [illegible] token
To the [illegible]
Of filching from [illegible] pocket
Soon they [illegible]

But as many things come thronging,
Asking utterance [illegible]
That [illegible]
Further to pursue this strain.

There are [illegible] take up [illegible] a theme,
And talk awhile of [illegible]
Of Saints [illegible]
With *holy fire* [illegible]
Thanks to [illegible]
Woman's [illegible]
And sweetest [illegible]
Without [illegible]
At least, so [illegible] Gentile race
Would cease to meddle with that harmless crew
Why did [illegible]
What mighty deed was there [illegible] to do?
It could not be, we know, [illegible]
With the old patriarchal institution,
[illegible] polygamy—because [illegible]
Such meddling violates the constitution,
(I mean the new— [illegible]
Wherein the glorious doctrine is set forth
That squat [illegible] lords complete
In territorial matters— [illegible]
The question then recurs—why was it sent?
It could not be to furnish [illegible]
For needy hangers on— [illegible]
And [illegible]
Away with [illegible]
No such unworthy [illegible]
On the far [illegible]
A [illegible] in vain
And Brigham [illegible]
Our aged [illegible]
And to [illegible]
Shrinks from his side, [illegible] I fear

But I can't stop here [illegible] to discuss
The *cause* that moved that expedition
We know it made among the Saints a muss,
And helped relieve the [illegible]
Of Samuel's chest—(doubtless its *real mission*)
I have not time to [illegible] Indian wars
Which to contract [illegible]
In the far West, [illegible]
Numbering a score [illegible]
At moderate cost— [illegible] dollars
Per cap [illegible]—perhaps a trifle more
For red-skinned [illegible] like the Wallah Wallahs
This is not high—we've paid as much before
For scalps in Florida, in days of yore

So let that pass—we'll talk of something higher—
Of that far nobler triumph, lately won,
Where patient Science with her wond'rous Wire
Hath all her mightiest marvels quite outdone—
Spanning the dread, mysterious ocean deeps,
In spite of all the fury of its waves,
From shore to shore like a black serpent creeps
[illegible]
Guide for the Lightning's [illegible]
Along that [illegible] the messages [illegible]
Our world [illegible]
Or mighty earthquakes shake the [illegible]

But I must haste to close this doggerel verse,
Though many matters still remain unsaid
Of last year's history, which I'd fain rehearse,
Did not your patience, time and space forbid

And now kind readers just a few words more
Before we part, and then my song is o'er
Let us remember, through the year just fled
How heaven on all hath countless blessings shed,
And for them all a grateful spirit cherish
And pour our thanks to Him whose liberal hand

With peace and plenty hath so crowned our land,
And hath preserved us while so many perish;—
So many perish!—from the year departed,
How like an echo comes that fearful thought!
Mingled with wailings of the broken hearted
Who hopeless mourn. The earth hath not one spot
Where dwells no mourner for the loved and lost—
From mount and vale—from lake and stream ascending.

Their wail of anguish comes on every blast,
With every glad sound of the earth 'tis blending,
Turning to sadness many a joyous tone.
For such—for all—the friendless, poor and lone
Show forth your sympathy in word and deed—
Comfort the sick—the poor and hungry feed.
So may you ever find at hand a ready friend,
But never need the kindly aid you lend.

Here now we part, and if we meet no more
On this sad earth—upon that glorious shore
Where pain and sorrow come not, may we dwell
In joy and peace forever. FARE YE WELL.

A CONSIDERATION OR TWO ABOUT CUBA.—While considering the movements which are making and which have heretofore been made, for the acquisition of Cuba, it has at times occurred to us to ask whether our government is really one of the *people*,—or of Presidents? If the former—then it certainly appears that our Presidents have taken to carrying things with a rather high hand. We would enquire when the people of this republic ever authorized President Polk, or President Buchanan or President anybody else, to offer one hundred millions, for Cuba? When have the people signified their desire to purchase Cuba at all? Has Congress passed any resolution or bill to that effect? Has the Senate—the treaty-making branch—recommended or authorized any such thing? Has it been done in secret session? Does anybody pretend it?—or does anybody imagine it? Again—have the *people* in their primary meetings, ever signified any wish that Mr Buchanan—either as Secretary of State under President Polk, or as President himself, should go ahead and acquire Cuba, without regard to cost, to expediency or to right? Have they ever expressed a wish that the National Treasury should be depleted, and the country run in debt to the tune of one, two or three hundred millions of dollars, for the acquisition of a great slaveholding island, to give to the oligarchy new political power and to lay new and grievous burdens upon the country for its government and defence? When, where, or how have the people ever authorized an offer for Cuba, such as Mr Buchanan made in President Polk's time, and such as he is ready now to renew any day when there is a chance of its acceptance? If it is seen that no such authority has been given by the "sovereigns" (whom Mr Buchanan and the "democracy" profess so strongly to revere) then we inquire where he *found* his authority? In what clause of the Constitution is he vested with power to buy Cuba with the people's money. We read that he may "*recommend to Congress* such measures as he shall judge necessary and expedient;"—but nowhere that he may go on and make positive offers of this kind to foreign governments—which shall bind the country to honor engagements made by them. It is no argument, and no excuse, that the power may have been exercised in a few cases before. More especially are our democratic strict constructionists without excuse for sustaining such a stretch of power or such an assumption of prerogative. It is true that Mr Buchanan has at last had the grace to (because he wanted money for the operation) the consideration of Congress in regard to the purchase of Cuba—but nevertheless he had previously gone on, and without any authority, *committed* the country, through one of its diplomatic agents, as it is well understood.

But as to the *acquisition* of Cuba. We hold that the interests of the United States would be materially best subserved, to have the island, as now, under the dominion of a third rate power, or else free and independent of itself. And this view has always been entertained by our wisest statesmen. There is no well grounded pretence that the exigency now exists, or is likely soon to exist, when Cuba is in danger of falling into the hands of either of the great naval powers. England and France both understand that the United States would probably resist the acquisition of the island by either of them—and neither will attempt it until a war with us is *desired*—a time which will not be likely to arrive during Mr. Buchanan's life time, to say the least. Leaving out of view entirely our anti slavery objections to the acquisition of Cuba, we can still see reasons enough for letting it alone.—The glowing conjectures as to the immense increase of its population and commerce under American rule are after all *but* conjectures, and very doubtful ones at that. The island, although equable in its climate, still lies under a tropical sun, and no European race has been found to remain so active, so hardy, or as energetic there as in their own land.—The Spaniards in the fifteenth century and in the early part of the sixteenth, were as enterprising and energetic a race of men as the Anglo Saxons of to-day—but *their* energy wilted under the tropical suns of America, and they at last sank to a miserable dependence upon Indian and African slaves. American vitality and Anglo Saxon mind and energy might possibly overcome the enervating influences of perennial summer, and unchangeable "balminess" of atmosphere—but we do not believe that such conditions are *favorable* to the full development of our national traits. We must be permitted therefore to doubt the realization of what appears to be Mr. Buchanan's extravagant anticipation—that ten millions of active energetic people would soon populate the island under American sway. We do not believe any such thing. The ideas presented on this subject are all rose-colored, to suit the ardent southern imagination, and dazzle the shrewd northern judgment. Then again, if we had Cuba, we should find a more difficult matter to know what to do with it than was the elephant to the man who won it in a raffle. Especially would Cuba be troublesome in case of war with either of the naval powers. It is said now that in case of war, there is danger that Spain, or any other power which possessed Cuba might annoy our Gulf commerce. But suppose we owned the island, and war with England or France should ensue? Having locked the Gulf, as we suppose, how shall we take care of the "key?"—(assuming that Cuba is the key.) England could within a month surround the island with her fleets,—land upon any and almost every part of it, and take possession of the whole, (except the Moro,—where the United States troops would be shut up until the end of the war or a starvation should relieve them.) England could do this, unless we had a navy sufficient to defend the island against her swarming war steamers and her hundreds of line-of-battle-ships. The question then comes home,—Are we, in acquiring Cuba, to take on also the necessity of defending it against such naval odds? Of course we are—and then—*an American navy must be had*. We now have but the germ of a navy. We need no more,—for we have no insular possessions of immense value to guard. *With Cuba*, we shall not only have paid heavily for its purchase, or its conquest as the case may be) but enormous expenditures must at once be incurred for its safe keeping and defence. Will it *pay*? Letting the "nigger" question slide for the moment,—suppose our northern merchants, who are now approached with this "glittering generality" about hypothetical commerce with future mythical millions in Cuba, should consider whether it is *likely* to pay for the United States to enter upon a system of insular acquisition, which if once commenced must drag us on to take the burden of all the Antilles upon our shoulders—to reduce them again to slavery, and to defend our possession against extermination which may have the disposition to pounce upon them in time of war. In a word, wouldn't it be better (if anything *must* be done) to guarantee the island to Spain, or, if the Cubans shall acquire their independence to keep them independent? In the latter case, would not the island and its resources and its commerce quite as likely be developed, and for the benefit of our merchants and shippers, as under our own government?

THE BOSTON JOURNAL.—We call attention to the advertisement of this well-known paper, by which its terms and arrangements for the ensuing year are made known. It is only stating what almost everybody is aware of, when we say that the Journal is decidedly the best arranged and most enterprising newspaper in New England,—and we think no paper in the whole country surpasses it. Any one who wants a Boston paper, and one which will give him all the news of interest from abroad, will do as well as he can do if he takes the Journal.

New Publications.

WORKING AND TRUSTING.—By Edith Rivers. Boston: Crosby, Nichols & Co 1859.

These beautiful and touching sketches of youthful ministration to youthful suffering and of the trials and fortitude of the unfortunate are drawn from the records of the "Christian Mission to the Children of the Destitute." The stories are of "The Ragged Newsboy," "Mary Bruce, the Little Apple Girl," "The Young Forgers," "The Dying Legacy: or a Tale of the Fatherless," and "Edgar Alwyn or found Asleep." It is a book of much interest and value, to the young especially.

For sale by Alonzo Bartlett at the Harlow Street Bookstore.

Mr. Merriam says that during the past year, so far as he has been able to learn, fifty-three persons have been killed by lightning, and sixty-eight injured. Thunder and lightning storms occurred on sixty-one days in the three summer months.

THE EATING HOUSE.—This is the spectre of a daily popular delusion, and is to be met with in a thousand and one localities in all the business parts of the city. There are probably 15,000 persons in New York who every day resort to the eating-house between 12 and 4 o'clock. They are, for the most part, victims of the most insane excitement. If they have a dark thought in the daily current of their reflections, it is the cruel recollection that they must leave their business and waste, in eating, time which might otherwise be devoted to making money. It is to these individuals a harsh but an inevitable necessity.—They drop the pen and rush madly out to obey a behest of nature, dictated by their stomachs, but at which their hearts rebel. They reach the eating-house, madly fling themselves thro' the doorway, bound up the stairs, taking three or four steps at a leap; whisper their orders hurriedly while they throw off their hats and overcoats; eat what is set before them with a celerity which marks how earnestly they wish the thing over and done with; jerk on their coats and hats while masticating the last mouthful; throw a pay-ticket and a quarter to the man at the bar; and rush back to business with the impression upon their minds that they have dined. It is needless to say that they have done nothing of the kind.—They have simply set the daily amount of bait in their several gastric traps for the dyspepsia; and a surer catch than they make of that they never made of anything in their lives.—*New York Times.*

The Albany Star states that a certain Railroad Company lately employed a female to watch a suspected conductor, and she pretended to be crazy, and would ride to the train. She put a pin in her sleeve for every passenger, and soon showed the conductor short in his cash account.

LOCAL AND MAINE NEWS.

The snow-storm referred to in yesterday's daily, subsided on Tuesday night, the weather clearing soon after midnight. The railroads were so badly blocked, however, that no train from the west arrived till last evening and then brought the mail from Boston of Tuesday only.

The road from Waterville to this city was broken out yesterday (Wednesday) by three engines and a snow-plow, which arrived here about half past two P M. The mail train, arrived about 9 last evening.

No train from New York reached Boston until yesterday afternoon.

The steamer Vanderbilt from New York via Stonington, went ashore in the storm, on Fisher's Island. She is badly damaged. Her passengers were landed safe.

MAINE SHIP ASHORE. We learned last evening, that ship John H Jarvis, (Collier, master,) which sailed from Castine, on Tuesday, in ballast for New Orleans, went ashore in the storm on Beech Island (about twelve miles from Castine) and bilged. It is feared she will be a total loss. She is owned partly in Boston and partly in Castine.

CUTTING J, presiding.

Wednesday, Jan 5.

John P Bent, Admr, vs John Goddard.—For balance for personal labor in erecting defts buildings at Cape Elizabeth, and mills at St John, and for payments to laborers by pliffs intestate.

This action was commenced by Wm G Bent in his life-time. After his decease his widow was appointed Admx, and tried the action.—At that trial she appeared herself as a witness under the statute making parties witnesses, but was excluded on the ground of her judiciary character. Since the trial she resigned the office of Admx, and the present pliff was appointed Administrator.

Col Goddard himself opened the defence to the jury, and will make the argument for the defense to-morrow or next day.

Peters for pliff.

Rowe & Bartlett and Goddard for deft.

POLICE COURT, *January 5.*—Dennis Shaw arraigned for stealing a coat from Chas H Jones, committed to jail for trial Saturday.

Eugene McCarty—for having liquor with intent to sell. Found guilty. Ordered to pay $25 and cost—appealed.

Mary Grogan, for stealing pair shoes, Fined $5 and costs—committed.

In Court 4th, State vs Thos Brown, seizure of liquors. No person appearing the liquors were forfeited.

DONATION PARTY IN CORINTH.—There was a pleasant donation party in Corinth last week, given to Rev Mr Mariner, of the Free Will Baptist Church. The amount contributed was $96, which L N Nichols, of the Parker House immediately made up to a round $100. Rev Mr Gilpatrick delivered a Poem. Rev Mr Palmer made an address and speeches were made by Jacob Lovejoy, Esq and others.

A party of gentlemen from Calais and St Stephen, visited Woodstock N B, by way of the St Andrews railroad, on the 28th ult.—making also an excursion to Houlton. The Woodstock Sentinel speaks in pleasant terms of the visit and the visitors.

WASHINGTON COUNTY OFFICERS.—The Machias Union says:

On Saturday last, as part of the result, of the last State election, Albert G Lane Esq. retired from the Office, of Clerk of the Courts, and was succeeded by Charles W Porter Esq. Mr Lane had held the office for two terms, dating from January 1st 1853. He succeeded Hon Albert Pillsbury, who was Clerk for ten or eleven years. Charles R Whidden Esq, County Attorney for the last half dozen years, gives way to Geo F Talbot Esq, the latter gentleman having been chosen by a "majority of the votes cast." Daniel W Willey Esq is superceded in the board of County Commissioners, where he had served three years, by Hiram Burnham Esq. The new Officers are all Republicans.

Joseph Granger Esq. of Calais, lectured before the St Stephen Lyceum, 16th ult; subject "Compensation." Wm J Harris Esq. of Miltown lectured before the same institution on Thursday evening Dec. 30

The Machias Union says that the bridge across Pleasant River, just above Addison Point, was considerably damaged by ice, about two weeks since.

EFFECTS OF SUNDAY DISSIPATION.—"The Sabbath in Europe" is the title of a pamphlet just issued by the New York "Sabbath Committee," containing a narrative of the investigations of the Secretary, Mr Cook, during a recent visit to Great Britain and the continent. The influence of a Paris Sunday on the health and morals of the people is thus sketched:

"What are its fruits? Are they not found in the thriftless condition of a vast *proletaire* population—living from hand to mouth—restless in spirit—ferocious in temper—kept from rebellion by a numerous soldiery, or quieted by government labor and food! May they not be seen in the dwarfed stature, and pallid aspect, and wretched inefficiency of the laboring classes, and in the 'Blue Monday' records of employers or of the magistracy—the Sunday dissipation disenabling thousands from Monday's occupations, or sending them to prison? Can they not be traced in the general decline of private, commercial and political morals—whatever cover the refinement and high civilization of Parisian life may throw over the inconceivable iniquity of its social condition; in the loosening of conjugal bonds, the utter loss of a *home day*, and of all the restraints and joys of home life; in the prevalence of godlessness, irreligion and infidelity, and in the ascendency of civil and spiritual despotism."

Eleven foreign ships are now in Savannah, or will be there in the next thirty days, after timber.

The Colonel's Horse.

The following old story is of an actual occurrence, related by one of the most jolly of men, in the good city of New Orleans.

I have never been able to ascertain the cause of the quarrel between the Crickleys and the Drakes. They have lived within a mile of each other in Illinois, for five years, and from their first acquaintance there had been a mutual feeling of dislike between the two families.

One day, Mr Drake, the elder, was returning home with a pocket full of rocks, from Chicago, where he had been to dispose of a load of grain, and Sam Barton was on the wagon with him. As they approached the grove which intervened between them and Mr Drake's house, he observed to his companion:

'What a beautiful shot old Crickley's Roan is, over yonder.'

'Hang it, so it is,' muttered old Drake.

The horse was standing under some trees, twelve rods from the road.

Involuntarily, Drake stopped his team. He glanced furtively around; then, with a queer smile, the old hunter took up his rifle, from the bottom of the wagon, and raising it to his shoulder, drew a sight on the Colonel's horse.

'Beautiful,' muttered Drake, lowering his rifle with the air of a man who had resisted powerful temptation. 'I could drop the old Roan so handsomely.'

'Shoot!' suggested Sam Barton, who loved fun in any shape.

'No, 'twon't do,' said the old hunter, glancing cautiously round.

'I won't tell,' said Sam.

'Wal, I won't shoot this time, tell or not tell. The horse is too high—if he was fifty rods off, instead of twelve, so there would be a bare possibility of mistakin' him for a deer, I'd let fly. As it is, I'd give old Crickley five dollars for a shot.'

At this moment, the Col. himself stepped from behind a big oak, not half a dozen paces distant, and stood before Mr Drake.

'Well, why don't you shoot?'

The old man stammered out some words in confusion.

'That you, Col? I—I was tempted to, I declare. But as I said, I'll give you a V, for a bud.'

'Say an X, and it's a bargain.'

Drake felt for his rifle, and looked at the old horse.

'How much is old Roan worth?' he whispered in Sam's ear.

'About $50.'

'Well, I'll do it. Here's an X.'

The Colonel pocketed the money, muttering: 'I'll be hanged if I thought you'd do it.'

With high glee, the old hunter put a fresh cap on his rifle, stood up in his wagon, and drew a close sight on old Roan. The Colonel put his money in his pocket, and chuckled too.

Crack went the rifle. The hunter let out a no table oath, which I will not repeat. Sam was astonished; the Colonel started, old Roan never stirred.

Drake gazed at his rifle, with a face blank and hollow.

'What's the matter with you, hey? First time you ever served me such a trick, I swan!'

And Drake reloaded his piece, with great wrath and indignation.

'People say you've lost your knack of shooting,' said the Colonel, in a tone of cutting sarcasm.

'Who said so? It's a lie!' thundered the enraged old hunter. 'I can shoot!'

'A horse at ten rods. Ha! ha!'

Drake was livid.

'Look here, Colonel, I can't stand that,' he began.

'Never mind, the horse can,' sneered the Colonel.

Grinding his teeth, Drake produced another X. 'Here,' he growled, 'I'm bound to have my shot.'

'Crack away,' said the Colonel, pocketing the note.

Drake did crack away—with deadly aim, too, but the horse did not mind the bullet in the least. To the rage and unutterable disgust of the old hunter, Roan stared him right in the face, as if he liked the fun.

'Drake,' cried Sam, 'you're drunk! A horse at a dozen rods! O Lord!'

'Shut your mouth, or I'll shoot you,' said old Drake.

'The man lies that says I can't shoot. Last week, I cut a goose's head at fifty rods, and I can do it again. Crickley, you can laugh now, but I'll bet you fifty dollars that I can bring down old Roan at the very next shot.'

The wager was readily accepted. The stakes were placed in Sam's hands. Elated with the idea of winning back his two tens and making an X in the bargain, Drake carefully selected a perfect ball, and with a buckskin patch, slowly loaded his rifle.

It was now nearly night, but the hunter was in the habit of boasting that he could shoot a bat on the wing by starlight, and without hesitation he drew a bead on old Roan's head.

A moment later, and Drake was driving through the grove, the most enraged and desperate of men. His rifle, innocent victim of his ire, lay with broken stock in the bottom of the wagon. Sam Barton was too frightened to laugh.

In the meantime, the gratified Colonel was rolling on the ground convulsed with mirth, and old Roan was standing under the trees.

When old Drake reached home, his two sons, discovering his ill humor, hastened to arouse his spirits with the news which they were sure would make him dance with joy.

'Clear out!' growled the angry old man, 'I don't want to hear any news; get away, or I'll knock you down!'

'But, father, it is such a trick played on old Crickley.'

'Old Crickley!' asked the old man, getting interested. 'Glad if you have played the Colonel a trick; let's have it.'

'Well, father, Jed and I, this evening, went out for deer'—

'Hang the deer! let's hear about your trick.'

'Couldn't find the deer, but I thot we must kill something, so Jed banged away at the Colonel's old Roan—shot him dead.'

'Shot old Roan!' thundered the old hunter. 'Jed, did you shoot the Col.'s hoss?'

'D-d-didn't do anything else.'

'Then,' said Jed, confident that the joke must be agreeable to his father, 'Jim and I propped him up and tied his head with a string, and left him standing under a tree just as if he was alive. Ha! ha! isn't it a joke?'

Old Drake's head fell upon his breast. He felt his empty pocket book, and looked at his rifle. Then, in a rueful tone, he whispered to the boys:

'It's a joke, but if you ever tell of it—or if you do, Sam Barton—I'll skin you alive. I have been shooting at that dead horse for over half an hour, at ten dollars a shot.'

At this moment, Sam fell into the gutter.—He had laughed himself almost to death.

The amount of taxes annually collected in Cuba, is $28,000 000, which is equal to about $46 for every white inhabitant; $42 more than is levied upon each white person in the United States.

On Christmas Eve, the three English Lords, who have been on a tour through Minnesota, with five boon companions, had a time in St. Louis. The party of eight drank *forty eight bottles of champagne*, (six bottles apiece,) and did not break the convivial circle until seven in the morning.

A Schoolmaster in Texas advertises that he is prepared to teach the *juvenile undergrowth* of that country how to shoot.

FOUR DAYS
LATER FROM EUROPE.

ARRIVAL OF THE

North American,
AT HALIFAX.

HALIFAX, Jan 5.

The Canadian Co's steamship North American left Liverpool 22d ult, put into this port this PM, short of coals, having experienced boisterous weather during the entire passage. On the night of the 1st inst, during a heavy snow storm, struck a rock off Cape Race, causing a considerable leak—the fore compartment being full of water.

Great Britain.

The Times says there is nothing in the President's message that can be called more than usually interesting. It briefly criticises the prominent points, and says in regard to internal affairs. For a peaceful nation the U S are certainly the most unfortunate in their political relations. A quarrel with the U S on some subject or other is a matter of course. Without one, a President's message would read tamely and meagre, and Buchanan therefore evinces a laudable anxiety to keep one in reserve.

Britain having given up the right of search Buchanan pays us many compliments upon our moderation but declines to suggest any means by which Spanish or South American ships hoisting the U S flag can be interfered with. The Times then refers to Buchanan's reference to the slave trade, and says his arguments in regard to the cession of Cuba, are such as Ahab might have used when he wanted to purchase the vineyard which was nigh to his palace.

The Times then sketches the President's views in regard to Mexico and Central America and concludes as follows: It is evident that the utter decrepitude of the Spanish race both north and south of the Isthmus is about to lead to a virtual supremacy of the Anglo Americans in the whole of the tropical regions.

No need of affected moderation on their part or philanthropy which few will credit.—The fact is plain enough that Mexico and Central America and Great Spanish Island will soon be under their sway direct or indirect; for our own part we see little to regret in the prospect except the extension and perpetuation of slavery in Mexico and other new territories, that the Americans will gain in the end by forming states under the equator we do not believe. The European race becomes not only enfeebled but demoralized by residence between the tropics, and the republic has already suffered enough from men of the South, to make it cautious how it turns the Spanish Main into a home of American citizens.

The Times says eight or ten new plans for laying the Atlantic cable have been put forth and draws special attention to the great Ocean Telegraph Co, which proposes to submerge a cable direct from Lands End in England to Halifax. It is proposed that the cable shall be constructed on Allen's system which does away entirely with the outside covering, reducing the weight to 10 cwt per mile.

The excitement in Ireland as to the arrest of members of the Phoenix club is dying out, two or three additional arrests have been made.

The London Times in its city article remarking upon Mexico says that no one entertains the smallest doubt that the American claims in Mexico will be obtained to the last dollar and ask why should not equal reliance be felt by European creditors, it says the foreign debt of Mexico is ten millions; of which probably more than three fourths is held in England. If the United States are to seize a material guarantee what it asks is to be done by England whose wrongs and demands are of so much greater magnitude.

France.

It is stated that a contract has been signed between the Marine Department and a firm at Marseilles to supply the Islands of Guadaloupe and Martinique with 20,000 free Africans suited for agricultural labor, before the 1st of January 1863, and that similar contracts have been entered into with other houses.

Morphy the American Chess Champion is confined to his room in Paris from indisposition and is consequently unable to commence his match with M Anderson.

The London Advertiser's Paris correspondent writes: The French foreign office has heard with some surprise Buchanan's notification of the desire of the American government to purchase Cuba. This part of the message is considered more strange as the French government had previously notified the American minister of its determination in conjunction with England not to tolerate the cession of Cuba to the United States even were Spain to consent.

Liverpool Breadstuffs Market—Breadstuffs are dull but quiet with the exception of wheat which shows more firmness. Flour dull, the stock is inferior and unsaleable—Western Canal, 19 a 20s, Phila, and Balt, 20 a 21s, Ohio 21 a 24s.

Congressional.

WASHINGTON, Jan. 5.

SENATE—A communication was received from the President, covering a letter from our Minister to China, and referred to the committee on the judiciary, as were also several important communications from the Navy and Interior departments.

Mr Clay of Ala. presented the credentials of Mr Chesnut of S C, the oath was administered, and the Senator took his seat.

Mr Seward of N Y, offered a resolution instructing the judiciary committee to enquire if it is necessary to amend the laws for the suppression of the African slave trade, which was adopted.

Mr Wilson of Massachusetts offered a resolution that a committee of five be appointed to enquire whether any employee in any department of the government since March, 1857, was required to contribute a portion of his pay to defray the expenses of, or influence any election during that period; or whether any employee has been removed for not so contributing, and what legislation is necessary to prevent the thus influencing of elections.—The resolution was laid over.

Mr Foot of Vt, moved that the Vice-President's address on leaving the old hall, be entered at length on the journal, and that 50,000 copies of Mr Crittenden's and the Vice-President's speeches be printed. Adopted.

The Pacific R R bill came up, and Mr Bigler of Penn, addressed the Senate. Mr Bigler's remarks were stopped by a message from the House, announcing the death of Gen Quitman.

Mr Davis of Miss, moved the usual resolutions of respect, and paid an eloquent tribute to the manly virtues and political probity of the deceased. He touched lightly on the filibuster proclivities of the deceased, and not in a tone of censure. The Senate then adjourned.

HOUSE—Mr McRae of Miss, announced the death of his immediate predecessor, Gen Quitman, sketched his eventful career as a statesman and soldier, and pronounced an eulogy on his private and public worth. The usual resolutions of respect were passed and the House adjourned.

From Kansas.

ST LOUIS, Jan 5.

A despatch from Kansas City says that a gang of Jayhawkers, under Capt Brown, entered Bates County, Mo, on Thursday last and stole four horses from Jesse Jackson, and burned his house.

It is stated on good authority that Gov Medary has ordered four companies of dragoons to that region, also that he has ordered four companies of militia to be raised in Linn and Bourbon Counties, the officers for which have already been commissioned, and that he has telegraphed to the Secretary of War to send on arms and ammunition from St Louis, which has been done. It is expected that these counties will be kept under martial law for some time.

A reliable person from the vicinity of Fort Scott, represents the acts committed there as similar to those of the time of the notorious Murrell.

The whole country is divided into Jayhawkers and anti-Jayhawkers; the former commit all sorts of crimes, and are openly upheld by some Methodist preachers, and many respectable people. The Jayhawkers justify their acts as a proper revenge for the same kind of depredations, and worse atrocities, committed upon them by the pro-slavery party when they were in a majority. The pro-slavery party still hold most of the offices, and are accused of oppressive acts. The old prosecutions pending on account of the former troubles are the great cause of dissatisfaction.

A despatch from Kansas city says that a quorum of both houses of the Kansas Legislature met at Lawrence on the 3d, and passed a resolution to meet and organize at Lecompton on the next day. A caucus was also held for the purpose of fixing a place to hold the session. Nearly all those present being agreed to adjourn from Lecompton to some other point in the Territory. At night a general caucus of the ultras was held and nominations for officers made embracing Mr Larsalere for speaker; Mr Delahay for clerk, and Mr Thatcher for printer. It was the general opinion that this organization would carry everything and control the house.

The Salt Lake Valley Post of Dec 10th says that the weather has been intensely cold and that several persons have frozen to death in the valleys and adjacent canons. The Utah Legislature was to meet at Fillmore city, Dec. 16th.

New Hampshire Republican Convention.

DOVER, N. H, 5th.

The Republican Congressional Convention of the first district was held here to-day. On the first ballot, Gilman Marston of Exeter had 92; Joel Eastman of Conway, 60; scattering, 31. Second ballot—Marston, 93; Eastman, 81; scattering, 12. Gilman Marston was nominated.

MANCHESTER, Jan 5th.

The Republicans of the 2d congressional district after a long and rather exciting convention here to-day adjourned to the 19th, without making any nomination for Congress.

WEST LEBANON, Jan 5th.

The Republicans of the 3d congressional district at their convention here to day nominated T M Edwards as their candidate by a large majority.

BOSTON, Jan 5.

Railroad and steamboat travel, disarranged by the snow storm, has began to resume regularity. The steamboat train via Stonington, from New York yesterday PM, arrived shortly after noon to-day. The Tuesday morning overland train arrived about 5 o'clock, making the trip in 31 hours. The Portland train was about 30 hours coming through. The tracks are now about clear. Weather fine and very little drifting.

TORONTO, 5th.

The government organs announce that Parliament meets on the 29th inst.

NEW YORK, Jan 5.

The steamship Cahawba arrived this PM, from Havana Dec 31st.

The excitement concerning Mr Buchanan's message continued, but was somewhat abated.

Strangers were pouring in rapidly from the United States, and a gay winter was expected.

Business was dull owing to the holidays.

The stock of sugar was about 200,000 boxes, and it was thought prices would decline.

Nothing doing in freights.

SPRINGFIELD, Ill 5th.

Hon S A Douglas was this afternoon re-elected U S Senator from Illinois. The vote stood, Douglas 54, Lincoln 46. Hodges, dem. was yesterday elected to Congress from the 5th district.

NEW LONDON, 4th.

The Revenue cutter, Jas Campbell from this city to day, visited the Vanderbilt and returned at 1 o'clock, bringing the U S Mails which were forwarded to Boston by the Express train over the shore line. Capt Clark of the cutter reports that fears are entertained by her officers that the boat will be a total loss.

HALIFAX, 5th.

The North American remains here awaiting instructions and will probably proceed for Portland by Friday next.

DEATH OF DR. NICHOLS. Rev Dr Nichols, Pastor of the First Parish Church and Society in Portland, died at Cambridge, Mass, Monday morning, aged 74 years. He had been pastor of the church for nearly half a century, having been settled, as a colleague with Dr Deane, June 7th, 1809.

THE MAINE FARMER.—The publisher, Russell Eaton, Esq, announces in the Farmer of this week, that he has disposed of the paper and the establishment to Messrs Homan & Manley, formerly of the Banner. The Farmer is in most prosperous condition, and will lose nothing under the new administration. Dr Holmes continues as editor.

Brig Mechanic, of Machias Port, reported yesterday as capsized, went ashore at Matinicus Island, 27th. Otis Abbot discovered the wreck and discharged the cargo.

One of the prisoners of the slaver Echo, while being taken from Columbia, S C, to Charleston, jumped from a car window while the train was at a speed of 25 miles per hour. The fall broke one of his legs, and he was recaptured.

The Boston Journal
FOR 1859.

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in advance.

In announcing the terms for THE JOURNAL for 1859, the proprietor deems it unnecessary to describe its peculiar characteristics as a popular newspaper, or to make any special promises for the future. He deems it sufficient to say, that what

THE BOSTON JOURNAL

has been in the *past* it will be in the *future*. By the almost unanimous consent of its contemporaries throughout New England, it stands at the head of the New England Press in all those qualities which go to make up a reliable, enterprising, *live newspaper*. This position it has attained by pursuing a steady, straight-forward course in all respects, and by sparing neither labor nor money to give the latest intelligence and the fullest reports of all matters of interest at the earliest moment. It has relied upon its own merits, and not upon the representations of canvassers or "drummers" to gain for it the confidence and patronage of the Public—and the result has been that *it has now a circulation nearly three times as large as that of any paper of its class in New England*—and it is constantly and steadily increasing. The proprietor intends by the employment of experienced and competent men in all the departments of the establishment, and by the most liberal outlay of money in the procuring of important news from all quarters, to make THE JOURNAL still more worthy the name of "*the favorite paper of New England.*" And with this simple announcement he invites the attention of newspaper readers and newspaper dealers throughout New England to the following statement of the terms for the several editions of THE JOURNAL.

BOSTON DAILY JOURNAL,

Morning and Evening.

Contains the latest news received by the mails and telegraph up to the hour of going to press. It is printed on one of *Hoe's Six Cylinder Fast Presses*, at the rate of FIFTEEN THOUSAND an hour, which enables us to hold back the forms until the very latest moment, and still work off the edition in season for the mails and expresses. It is published at the low rate of

Six Dollars a year; Single Copies two Cts.

SEMI-WEEKLY JOURNAL,

Tuesday and Friday Mornings,

Contains all the reading matter published in THE DAILY JOURNAL for the three days preceding—averaging from *thirty-one to thirty two full columns*. The subscription price of the Semi Weekly Journal is

Three Dollars a Year.

TO CLUBS.

Five copies, one year,	$12 50
Ten copies, one year,	20 00

To business men in the country who do not desire a daily paper, the Semi Weekly Journal is invaluable.

BOSTON WEEKLY JOURNAL.

Great Success of the Club Plan.

Three years ago the proprietor of the JOURNAL decided to reduce the price of the *Weekly Journal*, and the success of the low price Club plan has been so great as to induce the following low rates for 1859.

One copy, one year	$2 00
Two copies, one year, to one address,	3 50
Five copies, one year, to one address,	6 00
Ten copies, one year, to one address,	10 00
And one copy to the getter up of the club	
Twenty copies one year to one address,	$20 00
and two copies to the getter up of the club	

PAYMENT TO BE MADE

INVARIABLY IN ADVANCE.

At the expiration of the time for which advance payment has been received, the paper will in all cases be stopped.

The great success which has attended the introduction of the Club plan in the circulation of the Weekly Journal, and which has nearly

Trebled its Circulation

since its adoption, encourages its proprietor to continue the same plan. He would therefore suggest to those who are about selecting their paper for the ensuing year, that these terms offer to them one of the *best family newspapers in New England*, at a very *low price*—one which is within the reach of every man.

The present season is a favorable one for the organization of Clubs for subscription to the Journal. One enterprising man in each town and village can with very little trouble, get up a Club of ten or more persons, and thus *get his own paper for nothing*.

THE JOURNAL FOR CALIFORNIA

Is printed on the 4th and 19th of each month, for mailing by the steamers of the 5th and 20th. It is made up with the greatest care for the information of New England men in California. Over *twelve thousand copies* a month are now sent there, which is a much larger circulation than any other paper printed in the Atlantic States has. It is mailed at this office for *six cents a copy*. A person sending one dollar can have one each of sixteen numbers sent to any one they may desire.

TO ADVERTISERS

As an advertising medium THE JOURNAL has no equal in New England. The old, worn out, and unjust system of "yearly advertising" has been entirely abolished, and a new uniform system of prices adopted, by which each advertiser pays for the room occupied in the paper, and no more. Advertisements may be left at the Counting Room, or sent by mail or otherwise, with perfect confidence that the price charged will conform exactly to the published rates, and that they will be inserted on precisely the same terms as though handed in in person and a bargain made in advance. No "Drummers" are or ever have been employed to solicit advertisements, and no discount from the regular established prices is ever allowed, however large the amount advertised. These considerations, combined with the fact that its circulation is nearly

Three Times as Large

As any subscription or Two Cent Daily Paper published in Boston, and that all advertisements appear in both the MORNING and EVENING papers, renders it a favorite medium for communicating with the public, among the most intelligent and enterprising advertisers.

☞ The BOSTON JOURNAL is for sale at all the Newspaper and Periodical Depots in Boston and all the principal cities and towns throughout New England, and in the cars on all the lines of railroad leading from Boston. It is delivered by regular carriers at the residences and places of business of the citizens of the larger cities, such as Worcester, Salem, Lynn, New Bedford, Newburyport, Lowell, Lawrence, Providence, R. I., Portland, Me., Bangor, Me., Concord, N. H., &c, and in the adjoining cities of Roxbury, Charlestown, Chelsea and Cambridge, with the same regularity and promptitude, and in the same manner, as it is in Boston.

Orders for either of the editions of the JOURNAL must be *invariably* accompanied by the CASH, and should be addressed to

CHARLES O. ROGERS,
12 State Street, Boston.

To newspapers that may copy this prospectus, with an editorial notice directing attention to it, and send a copy marked to this office, we will send the Daily Journal for one year. 2td

Aroostook Railroad.

At the meeting held in Bangor upon the return of the Editorial corps from Aroostook to determine the best mode of accomplishing the enterprise of constructing a railroad to that county, a committee was appointed, consisting of Elijah L. Hamlin, Wm A. Blake, Isaiah Stetson, R B Prescott, Samuel Larrabee, Wm. H Mills, and Abraham Woodard, authorised to receive such propositions as might be offered, and make such disposition of the subject as in their opinion might the most certainly ensure the great object of the meeting.

The B O & M R R Co, who already own a road thirteen miles in length, embracing a bridge at Oldtown across the Penobscot river, with depots, furniture and appurtenances of a good road, have made to said committee the following proposition, which on their part they are ready to perform, if accepted.

The said Company propose that the State shall loan their credit, to a reasonable amount, to build a road from Mattawamkeag to some practicable point in Aroostook county, or instead thereof, to appropriate the public lands or the proceeds thereof for that purpose. In case of the latter course being determined on, the following plan is proposed to make the lands available to that end. The lands shall be put at the price of 25 cents per acre, with the condition that if the railroad is built the purchaser shall pay 50 cents per acre instead of 25.

In order to ensure fairness in the distribution, every town in the State shall be allowed to take proportion of the lands according to its ratio of inhabitants, paying therefor at such time from one to twenty five years, as the Legislature may determine, with interest annually. The conveyance may be taken by the town, or they may assign their right to do so to such of their citizens or others as they may see fit. If within one year the town does not elect to take the lands thus falling to their share, the Governor and Council may sell the same to such person or corporation, on such conditions, and for such price and terms as they may think proper, the right of selling any of said lands in all cases to be subject to the limitation that no lands suitable for settlement shall be sold to any but actual settlers. The several towns to be authorised to purchase such lands, and to hold or sell the same, and to loan the proceeds thereof, not exceeding $200 to any one person or family, as they may choose, so that if the town wishes to assist any of their citizens to a home in the new territory, they shall have the power to do so on whatever terms they may think proper.

After the town has elected by vote to take the lands, and notified the Land Agent thereof, the Selectmen, or such other persons as the town may authorize, may issue scrip or warrants to whomever they please, certifying their right to receive the number of acres specified therein, which scrip or warrants shall entitle the holder to a deed from said Agent of the number of acres specified, upon performance of such settling duties as the Legislature may prescribe to secure the object of settlement, said lands to be selected from any of the public lands not then already appropriated or taken up. In this way all parts of the State may be made equally the recipients of the State's favor, and its citizens in all parts have an equal chance to gain a home in the territory thus thrown open for settlement.

The public lands thus appropriated for the purpose of extending the road from Mattawamkeag to Aroostook, are regarded by this Company as ample security for the building and equipping of that portion of the whole road, a lien being also retained upon the road and equipments for any further expense in the matter. Contracts for building and equipping the road to be made with the Governor and Council, and they are to have the general superintendence of the whole work. The fee of the whole of said road to be in the State, subject only to the said lien.

The road from Mattawamkeag to Aroostook being thus provided for, it is proposed to build and equip the road from Milford to Mattawamkeag and Brownsville by individual subscription, aided by a pledge of the credit of the City of Bangor for a sum not to exceed $16,000 per mile.

After the State shall have appropriated the lands as aforesaid, to build the road from Mattawamkeag to Aroostook, the Company undertaking to build the road shall give or deposit with the Governor and Council ample security to their satisfaction, that they will build and fully equip the road to Mattawamkeag and Brownsville to connect with tide waters at Bangor, so that the City shall have an unencumbered lien upon the road all completed and equipped or the amount of their credit loaned, the same not to exceed $16,000 per mile for the road to be built by their aid, the City to retain the title of the road thus to be built, with all the furniture and appurtenances thereof, and also as additional security, to have the property thus deposited with the Governor and Council, the whole to be held by the City until they are fully paid and indemnified.

Either of the several railroad Companies already chartered, viz—the Aroostook, the Oldtown & Lincoln, North American & European, Penobscot, Bangor, Oldtown & Milford R. R. Companies to have the privilege of taking the said contract and building said roads, whichever will do the same for the least sum, and give the required security as aforesaid.

If the contract should be assigned to the B. O. & M. R. R. Co, they will offer and hereby pledge themselves to give as such security their whole road from Bangor to Milford, together with the Bridge at Oldtown, with all their depots, furniture and appurtenances, and all the accruing nett earnings of the road, the said earnings to be appropriated towards the expenses of the road while building, and afterwards as a sinking fund to pay the debt due on the road for which the City loan is granted.

The whole question of a loan to be submitted to the citizens of Bangor, under such restrictions and conditions as the Legislature may think fit to impose.

In this way it is believed that this great public enterprise may be accomplished with perfect safety to the State and to the City of Bangor. The latter will have a most important road completed to their city from Aroostook and Brownsville, at a relative cost of only about the same as their loan to the P. & K. road, with an additional security on other property, which in case of any possible failure, must in any contingency reduce their liability to a sum far less than the value of the road on which all their money is expended.

If this plan is adopted and sanctioned by the Legislature of the State in the enactment of proper laws to carry it into effect, it will rest solely with the City of Bangor to say whether this great enterprise, so closely connected with her future prosperity, shall be perfected or whether she will permit her Provincial neighbors to quietly absorb all the trade of the Aroostook, which this city can now so readily secure.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician

It is not a truth that when the feet are often wet, it is one of the greatest causes of disease and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks, but when it is waterproof this is remedied. By the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 30 years in the manufacture of Leather in all its branches, and being troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but also likewise preserve the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of the time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore with confidence recommend it to the public as the best article in the market.

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858

MECHANICS INVENTORS MANUFACTURERS AND FARMERS

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science, on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times and to employ the best facilities in his business—if the Man of Leisure and study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these *desiderata* can be found in the SCIENTIFIC AMERICAN, and *not elsewhere*. They are here presented in a reliable and interesting form adapted to the comprehension of minds unlearned in the higher branches of science and art

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premium wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—45 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$26 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts. per lb
Bonds and Mortgages—40 cts, per lb.
Wills and Deeds—40 cts per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time

For Southern climates it is excellent, and much superior to any other, as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N J, of about 300 horse power and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U S Patent Office, Washington (under the Act of 1837)

76 State St., opposite Kilby St.,

BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,"
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents

"Boston, February 8 1858.

Mr R. H. Eddy has made for me THIRTEEN applications on all but one of which patents have been granted and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges. JOHN TAGGERT"

From Sept. 17th, 1857 to June 17th, 1858, the subscriber in course of his large practice made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

THE LIVER INVIGORATOR

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure

Bilious attacks are cured and, what is better prevented, by the occasional use of the Liver Invigorator

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness,

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic while

One dose often repeated is a sure cure for Cholera Morbus and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well

One dose often repeated, cures *Chronic Diarrhoea* in its worst forms while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever,* and all Fevers of a *Bilious type*. It operates with certainty and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together

Price One Dollar per Bottle.

Ellsworth, March 8th, 1858 d&wtf

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good, but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the [illegible] It is antagonistic to disease [illegible] children may take them with [illegible] are sick they will cure them [illegible] will do them no harm.
